c. Trading Rebates details

- 1) The applicable rebates will be distributed proportionally and will be equal to two (2) USD*** for every one (1) LOT traded on FX currencies, two (2) USD*** per each LOT of commodities, two (2) USD*** per each ten (10) LOT of indices, up to ten thousand (10,000) USD***.

*** in case account currency is different from USD, the rebates will be credited in relevant account units (EUR or GBP, without rate conversion)

- 3) Once the trading rebates are added to the client's trading account balance, then the client can withdraw this amount without any limitation.
- 4) Positions held for less than 1 minute do not qualify for a rebate.

d. Withdrawal requests

The client may select to withdraw the available balance (either partially or fully) from their trading account at any given time and/or request to transfer the funds between their accounts with the Company.

After the execution of the withdrawal request, a new bonus is calculated for the account using the new real equity. If the new calculated bonus is less than the account current bonus, an adjustment is applied which is equal to the difference. Example below.

Bonus Promotion 50%
Current Equity: 1000 USD
Current Bonus: 200 USD

Withdrawal request of 500 USD => New equity = 500 USD
New real equity = New equity – Current Bonus = 500 – 200 = 300 USD
New Bonus = 300 * (50%) = 150 USD

If New Bonus < Current Bonus
Then

Credit adjustment is applied = Current Bonus – New Bonus = 200 – 150 = 50 USD
Equity Now = New equity – Credit adjustment = 500 – 50 = 450 USD
